

Mature-library gap-fill

18 components added after benchmarking the library against shadcn/ui and enterprise console patterns (Ant Design / Carbon / Polaris), grouped into three tiers: standard primitives, patterns grounded in the real product mockup, and lower-priority-but-real additions.

■ TIER 1 — STANDARD PRIMITIVES

Dialog, Alert & Separator

Dialog — open state

layout/Dialog.tsx

Create workspace

This creates a new isolated workspace.
